Helping Kids Grow Through Challenges: Understanding Brains and Tailoring Treatments

Presenters: Andrew Ballew, PsyD and Jessica Miller, MA

Monday, July 23, 2018 | Dellwood Country Club; Dellwood, MN | 7:30 - 10:30 a.m.

Clinicians, parents, and educators face many challenges in helping youth who have neurodevelopmental disorders such as fetal alcohol spectrum disorder, autism spectrum disorder, and attention deficit hyperactivity disorder.

At this conference, you will learn:

- How to decide on the best interventions and supports for the child in your care.
- How assessments identify factors such as IQ, memory, executive functioning, and learning capacity, as well as problems with coping, behavior problems, social skills, and adaptive skills.
- How the interplay of these factors can help you to select personalized strategies for effective treatment.
- How a consideration of family relationships, social supports, and culture can improve results and promote healthy development.

**Stay for Golf!
12 p.m. Start**

After learning, it's time to play! Join us on the Dellwood Country Club Course for an 18-hole scramble tournament, including lunch, dinner, a silent auction and more!

**Early Bird Conference: \$55
After July 1: \$65**

**Early Bird Conference plus Golf: \$200
After July 1: \$210**
