

Community forum scheduled

The White Bear Lake Area School Board will host a community forum to inform the public about projects under consideration for Phase I of the District's Secondary Program and Facilities Review.

Tuesday, February 24

6:30-8 p.m.

District Center Community Room (112)

The format of the evenings will allow for information about potential projects to be shared with community members, followed by small-group discussions hosted by District and School Board representatives.

The four areas of focus of the Secondary Program and Facilities Task Force are: 4Cs learning environment enhancements (collaboration, creativity, communication, and critical thinking); music and performing arts; security and general site improvement; and field and gymnasiums, including priorities from the 2013 White Bear Lake Area Athletic Facilities Needs Assessment.

The facility needs assessment was conducted in partnership with municipalities and the township originally in 1998 and updated in 2008 and 2013. One facility priority that will be discussed, and has long been a consideration, is a turf field at WBLAHS - South Campus. The potential turf field would be funded with identified resources in the revised budget, and taxes would not be increased to fund the project.
